ADFA IDS DataSets Version 2.0

License Agreement

23/03/2017

ADFA IDS Datasets consist of following individual IDS datasets:

(1) Network and Linux host IDS datasets: ADFA-LD-dataset, netflow-IDS-dataset, and NGIDS-DS IDS Dataset.

Download link:

(2) Windows based IDS dataset ADFA-WD

Download link:

This License Agreement applies to all of above-mentioned IDS datasets. Redistribution and use of these software/data are permitted if the following General Conditions (GC) and Specific Conditions (SC) are met:

General Condition (GC):

The use of these data/codes is for the purpose of research only. Anyone downloading the data/code must agree the following: (i) The website host and the contributors have the right not to answer any queries. (ii) No any liability whatsoever could be imposed on the website host and contributors.

Specific Conditions (SC):

(1) Following references [1][2][3][4][5][6][7][8][9] must be cited in any paper/report that makes any use of the relevant data/code. Some details of these datasets, and how to use them can be found in these references.

(2) Redistributions must reproduce the License agreement in this document.

Other useful references for IDS research
